

Index to Volume 237

- Agbottah E, *see* Wang L *et al*
Antoine S, *see* Capuano V *et al*
Ayres BE, *see* Imura H *et al*
- Bagchi D, *see* Talpur NA *et al*
Balasiner N, *see* Sethi Saberwal G *et al*
Bandyopadhyay D, *see* Mazumdar A *et al*
Bandyopadhyay U, *see* Mazumdar A *et al*
Banerjee RK, *see* Mazumdar A *et al*
Bańkowski E, Pałka J, Jaworski S: An expression of IGF-binding proteins in normal and pre-eclamptic umbilical cord serum and tissues 111–117
Baylor S, *see* Wang L *et al*
Belmadani S, Poüs C, Ventura-Clapier R, Fischmeister R, Méry PF: Post-translational modifications of cardiac tubulin during chronic heart failure in the rat 39–46
Berthelot A, *see* Elhaïmeur F *et al*
- Capuano V, Ruchon Y, Antoine S, Sant M-C, Renaud J-F: Ventricular hypertrophy induced by mineralocorticoid treatment or aortic stenosis differentially regulates the expression of cardiac K⁺ channels in the rat 1–10
Carvalho AP, *see* Castro-Caldas M *et al*
Castro-Caldas M, Duarte CB, Carvalho AP, Fernandes Lopes MC: Dexamethasone induces the secretion of annexin I in immature lymphoblastic cells by a calcium-dependent mechanism 31–38
Chakraborti AS, *see* Sil S *et al*
Chakraborti S, *see* Das S *et al*
Chakraborti T, *see* Das S *et al*
Chakraborty AK, Hall RH, Ghose AC: Purification and characterization of a potent hemolytic toxin with phospholipase A₂ activity from the venom of Indian Russell's viper 95–102
Choudhary J, *see* Sethi Saberwal G *et al*
Courderot-Masuyer C, *see* Elhaïmeur F *et al*
- Das S, Chakraborti T, Mandal M, Mandal A, Chakraborti S: Role of membrane-associated Ca²⁺ dependent matrix metalloprotease-2 in the oxidant activation of Ca²⁺ATPase by tertiary butylhydroperoxide 85–93
de la Fuente C, *see* Wang L *et al*
Deng L, *see* Wang L *et al*
Dominguez C, Solé E, Fortuny A: *In vitro* lead-induced cell toxicity and cytoprotective activity of fetal calf serum in human fibroblasts 47–53
Duarte CB, *see* Castro-Caldas M *et al*
- Echard BW, *see* Talpur NA *et al*
Elhaïmeur F, Courderot-Masuyer C, Nicod L, Guyon C, Richert L, Berthelot A: Dietary vitamin C supplementation decreases blood pressure in DOCA-salt hypertensive male Sprague–Dawley rats and this is associated with increased liver oxidative stress 77–83
- Fernandes Lopes MC, *see* Castro-Caldas M *et al*
Fischmeister R, *see* Belmadani S *et al*
Fortuny A, *see* Domínguez C *et al*
- Ghose AC, *see* Chakraborty AK *et al*
Guyon C, *see* Elhaïmeur F *et al*
- Hall RH, *see* Chakraborty AK *et al*

- Imura H, Ayres BE, Suleiman M-S: Purine metabolism and release during cardioprotection with hyperkalemia and hypothermia 119-127
- Jaffari O, *see* Talpur NA *et al*
- Jaworski S, *see* Bańkowski E, *et al*
- Joe YA, *see* Lee Y *et al*
- Juneja HS, *see* Sethi Saberwal G *et al*
- Kashanchi F, *see* Wang L *et al*
- Kehn K, *see* Wang L *et al*
- Kim H-K, *see* Lee Y *et al*
- Lee Y, Kim H-K, Park H-E, Park MH, Joe YA: Effect of *N*¹-guanyl-1,7-diaminoheptane, an inhibitor of deoxyhypusine synthase, on endothelial cell growth, differentiation and apoptosis 69-76
- Maddukuri A, *see* Wang L *et al*
- Mahieux R, *see* Wang L *et al*
- Mandal A, *see* Das S *et al*
- Mandal M, *see* Das S *et al*
- Mazumdar A, Bandyopadhyay D, Bandyopadhyay U, Banerjee RK: Probing the role of active site histidine residues in the catalytic activity of lacrimal gland peroxidase 21-30
- Méry PF, *see* Belmadani S *et al*
- Morange M, *see* Wang L *et al*
- Nicod L, *see* Elhaïmeur F *et al*
- Pałka J, *see* Bańkowski E, *et al*
- Park H-E, *see* Lee Y *et al*
- Park MH, *see* Lee Y *et al*
- Poüs C, *see* Belmadani S *et al*
- Preuss HG, *see* Talpur NA *et al*
- Renaud J-F, *see* Capuano V *et al*
- Richert L, *see* Elhaïmeur F *et al*
- Ruchon Y, *see* Capuano V *et al*
- Sant M-C, *see* Capuano V *et al*
- Santiago F, *see* Wang L *et al*
- Sethi Saberwal G, Sharma MK, Balasinar N, Choudhary J, Juneja HS: Estrogen receptor, calcium mobilization and rat sperm motility 11-20
- Sharma MK, *see* Sethi Saberwal G *et al*
- Shetty S: Cytoplasmic-nuclear shuttling of the urokinase mRNA binding protein regulates message stability 55-67
- Sil S, Chakraborti AS: Hematoporphyrin interacts with myoglobin and alters its functions 103-110
- Solé E, *see* Domínguez C *et al*
- Srivastava N: ATP binding cassette transporter A1 – key roles in cellular lipid transport and atherosclerosis 155-164
- Suleiman M-S, *see* Imura H *et al*
- Talpur NA, Echard BW, Yin Fan A, Jaffari O, Bagchi D, Preuss HG: Antihypertensive and metabolic effects of whole Maitake mushroom powder and its fractions in two rat strains 129-136
- Trigon S, *see* Wang L *et al*
- Ventura-Clapier R, *see* Belmadani S *et al*
- Wang D, *see* Wang L *et al*
- Wang L, Deng L, Wu K, de la Fuente C, Wang D, Kehn K, Maddukuri A, Baylor S, Santiago F, Agbottah E, Trigon S, Morange M, Mahieux R, Kashanchi F: Inhibition of HTLV-1 transcription by cyclin dependent kinase inhibitors 137-153
- Wu K, *see* Wang L *et al*
- Yin Fan A, *see* Talpur NA *et al*
